## Disclaimer

This document or any part thereof may not be made public or disclosed, copied or otherwise reproduced or used in any form or by any means, without prior permission in writing from the NEMOSHIP Consortium. Neither the NEMOSHIP Consortium nor any of its members, their officers, employees or agents shall be liable or responsible, in negligence or otherwise, for any loss, damage or expense whatever sustained by any person as a result of the use, in any manner or form, of any knowledge, information or data contained in this document, or due to any inaccuracy, omission or error therein contained.

All Intellectual Property Rights, know-how and information provided by and/or arising from this document, such as designs, documentation, as well as preparatory material in that regard, is and shall remain the exclusive property of the NEMOSHIP Consortium and any of its members or its licensors. Nothing contained in this document shall give, or shall be construed as giving, any right, title, ownership, interest, license or any other right in or to any IP, know-how and information.

Co-funded by  
the European Union

This project has received funding from the European Union's Horizon Europe Research and Innovation programme under grant agreement No 101096324. The information and views set out in this publication does not necessarily reflect the official opinion of the European Commission. Neither the European Union institutions and bodies nor any person acting on their behalf, may be held responsible for the use which may be made of the information contained therein.

## Project Summary

The ambition of the NEMOSHIP project is to develop, test and demonstrate new innovative technologies, methodologies, and guidelines to better optimise large electric battery power technology within hybrid and fully electrically powered ships. The project will act as a key enabler of the new co-programmed European Partnership Zero Emission Waterborne Transport (ZEWT) roadmap to better reach International Maritime Organization (IMO) objectives regarding the reduction of Greenhouse Gas (GHG) emissions from waterborne transport by 2030 and 2050.

To help achieve this ambition, NEMOSHIP will develop a modular and standardised battery energy storage solution that is able to exploit heterogeneous storage units and a cloud-based digital platform to enable data-driven, optimized, and safe exploitation. The project will demonstrate the maturity of these innovations at Technology Readiness Level (TRL) 7 for hybrid ships as well as their adaptability towards fully electric ships thanks to the observations collected from a retrofitted hybrid Offshore Service Vessel (OSV) (diesel/electric propulsion), a newly designed hybrid cruise vessel (LNG/electric propulsion) and a semi-virtual demonstration of two additional fully electric vessels employed in tasks such as ferrying and short-sea shipping.

The NEMOSHIP consortium estimates that these innovations will contribute to the electrification of about 7% of the European fleet by 2030 and the reduction by 30% of EU maritime GHG emissions compared to a business-as-usual scenario.

The NEMOSHIP consortium is composed of 11 partners (3 RTO, 1 SME, 7 large companies) from six European countries and covers the whole value chain, from research-oriented partners to software developers, energy system designers, integration partners, naval architects, and end-users.

## Privacy Notice - Introduction

The Commissariat à l'énergie atomique et aux énergies alternatives (« CEA ») collects personal information ("Personal Data") that will be subjected to computer processing in accordance with the Regulation (EU) 2016/679 of the European Parliament and of the Council ("GDPR"). The CEA has designated a Data Protection Officer who has the authority to deal with all issues related to the Personal Data protection. If needed, please write to the DPO: [dpd@cea.fr](mailto:dpd@cea.fr)

NEMOSHIP is a project in which 11 organisations participate (see [Cordis website](#) or [project website](#) for more details). It is important that you read this privacy notice together with the privacy notices or fair processing notices associated with the other organisations who are partners in this project. This privacy notice supplements the other notices and is not intended to override them. More details of the NEMOSHIP project partners and their privacy notice is available in Table 1.

The NEMOSHIP project website is not intended for children and we do not knowingly collect personal information relating to children.

This privacy notice was last updated on March 13<sup>th</sup> 2024.

## 1 Why and under what basis do we collect and/or process your Personal Data?

The CEA collects and/or processes Personal Data related to:

- **Identity data:** title, first name and family name, job title, synthetic description of your work experience/Linkedin profiles, recordings of presentations given at NEMOSHIP events/activities;
- **Professional contact data:** email address, telephone number, work organisation name and address;
- **Enquiry data** that you share with us in relation to the NEMOSHIP project;
- **Survey data:** your responses to surveys/questionnaires sent by NEMOSHIP partners in relation to the project;
- **Marketing data:** your preferences in receiving information and updates related to the NEMOSHIP project as well as data relating to use of the website or participation in a NEMOSHIP activity;
- **Financial data relating to follow-up of NEMOSHIP budget** (for NEMOSHIP partners only): information about the various expenditures from NEMOSHIP project partners (incl. personnel costs).
- **Others:** any other non-required personal information you may share with us.

The CEA collects and/or processes Personal Data on the following basis:

- processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Your Personal Data are collected and/or processed in order to:

- Send you regular newsletters if requested by you through our form online or via email to CEA;
- Follow-up with you after registration to attend a NEMOSHIP event/activity (and in relation to that event/activity);
- Follow-up with you on an enquiry made to a project partner e.g. via email, phone or at events;
- When your personal data is included as part of NEMOSHIP statistics/case study/article/video/post or interview. Your personal data will not be identifiable outside of the NEMOSHIP consortium unless we get authorisation from you beforehand via email that your data can be shared for that purpose;
- Understand better how the website is used and analyse interest in NEMOSHIP activities to further improve the activities we deliver;
- For the NEMOSHIP project partners only: to ensure follow-up of the NEMOSHIP project budget and activities.

## 2 With whom do we share your Personal Data?

Personal information may be shared with the NEMOSHIP project partners based in the European Union and the European Economic Area (see location in Table 1).

The information may also be shared with the funding organisation, and any audit authorities for the purposes of reporting on the NEMOSHIP project, audit and compliance. Where required to do so by law, we may also share your information with law enforcement agencies.

Information may be shared with service providers/experts working for NEMOSHIP partners to help us administer the project, e.g. companies providing IT support or legal advices.

We may share publicly photos of events organized as part of the NEMOSHIP project (e.g. for dissemination purposes on NEMOSHIP website). \*

We will share your name, a photo and a short biography (e.g. via NEMOSHIP website or an event organization tool) if you are presenting at a NEMOSHIP event in order to promote this event. \*

We may include other personal data in deliverables/dissemination activities related to NEMOSHIP. However, we will make sure that, apart from the above two specific cases (see \*), you will not be identifiable except if you grant us consent to do so.

## 3 How long do we save your Personal Data?

Your Personal Data is stored for no longer than the time required for the purpose for which it was collected and/or processed as previously described within the limits of the applicable legal and contractual, tax and social provisions and to protect its lawful interests. Impact evaluation by the funding organization for this project can take place up to 5 years after the end of the project, so your Personal Data will be kept until that date.

## 4 What are your Personal Data protection rights ?

Within the limits set forth by the Personal Data Protection Regulation, especially articles 15 to 22 of the GDPR, after establishing your identity, you have the right to (1) access, (2) correct, (3) object and/or (4) limit any or all your Personal Data. Note, regarding objection and limitation this applies to processing of your Personal Data. Where processing is based on your consent, you have the right to withdraw this consent at any time without affecting the lawfulness of processing based on consent before its withdrawal.

If you wish to exercise this right and gain access to your Personal Data, please write to our Data Protection Officer: [dpd@cea.fr](mailto:dpd@cea.fr). Any abusive request with respect to laws and regulations may be refused.

## 5 Commission Nationale de l'Informatique et des Libertés

Please note that you may raise an objection before the Data Protection Officer (dpd@cea.fr) and, in the event of unsolved litigation, before the “Commission Nationale d’Informatique et des Libertés”, (“CNIL”) which is the regulatory body in charge of the personal data protection Regulation enforcement in France, directly by their website: <https://www.cnil.fr/fr/agir> or by mail at the following address: Commission Nationale de l'Informatique et des Libertés, 3 Place de Fontenoy - TSA 80715, 75334 PARIS CEDEX 07, FRANCE. Details of the other project partners DPO are available in Table 1 – you may raise an objection before them if it relates to data processed by them.
